

# Software Engineering for Interactive Media

---

## Labs Report

Instructors : Vincent CHARVILLAT and Axel CARLIER  
[vincent.charvillat@enseeiht.fr](mailto:vincent.charvillat@enseeiht.fr)  
[axel.carlier@enseeiht.fr](mailto:axel.carlier@enseeiht.fr)  
Student: Your Firstname and Last Name

Hanoi, April 9<sup>h</sup>, 2013

## TABLE OF CONTENTS

### Lab1

#### 1.1 Welcome page in HTML5

##### Code (HTML)

```
<!DOCTYPE html>
<html>
  <head>
    <meta charset="utf-8">
    <title>Lab 1</title>
  </head>
  <body>
    <p>Hello HTML 5</P>
  </body>
</html>
```

## Comment

- ☒ **<!DOCTYPE>** declaration to your HTML documents, so that the browser knows what type of document to expect. `<!DOCTYPE html>` is used only for HTML 5.
- ☒ **<head>** The head element is a container for all the head elements. Elements inside `<head>` can include scripts, instruct the browser where to find style sheets, provide meta information, and more.
- ☒ **<body>** defines the document's body. The `<body>` element contains all the contents of an HTML document, such as text, hyperlinks, images, tables, lists, etc.
- ☒ **<meta>** The metadata can be used by browsers (how to display content or reload page), search engines (keywords), or other web services.
- ☒ **<title>** defines the title of the document.
- ☒ **<p>** defines a paragraph.
