- I was a student in your class last year, but after, I delay 1 year (from May,2014 to March, 2015) because I have some problem about my health. Now, I am in your class again.

Personal information

- I choose multimedia course in the master because I like the creativity and multimedia is not only requires the creativity but also develop them.
- I especially like image processing, how to create an image or interface, change them and make them more beautiful..... And I hope I will be learnt more interesting things from this course.
